GAME DYNAMICS

Lottryx is an extremely simple game, accessible to everyone. To play, simply connect via Metamask and have credit available. Once connected you buy a lottery Ticket and a random number will be automatically generated, between 0.01 to infinity. If this number is among the top 5 highest it will enter the rankings and if at the end of the daily round it remains among the best, one of the prizes will be won!

Lottryx offers:

- ❖ **Rewards in a stable coin** 
- ❖ **Win every day and 5 paid positions**
- ❖ **Total security, thanks to transactions that are always traceable and to the daily winnings**
- ❖ **Excellent referral system, which rewards with free tickets (coming soon)**
- ❖ **100% honest team, very active and always available in case of need**

TICKETS PURCHASE

As mentioned above, the gameplay is based on the simple purchase of tickets, with which a random number will be generated. To purchase a Ticket you just have to click on the appropriate button and confirm the transaction on Metamask. Each ticket costs 1 

The numbers range from 0.01 to infinity

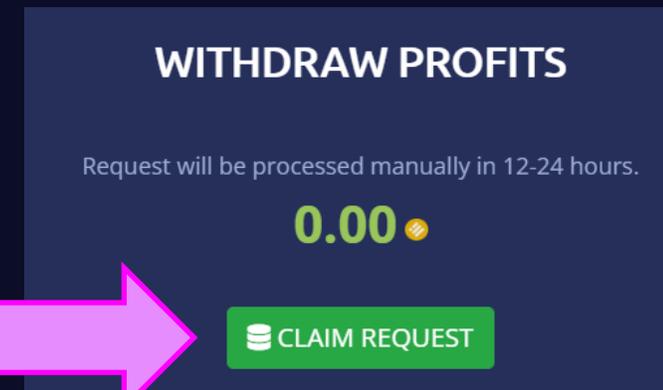

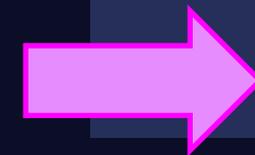

LOTTERY MECHANICS AND WITHDRAWAL

Lottery rounds last 24 hours and are therefore **daily**. It is possible to play freely throughout the round, until the last minute

Game economics works as follows:

- ❖ 70% of the proceeds from ticket sales go into the prize pool and are distributed among the 5 winning positions in this way:
1st 60% | 2nd 22% | 3^o 11% | 4th 5% | 5th 2%
- ❖ 20% is for the referral system, marketing and special events, 10% for the team

WITHDRAWAL of winnings can be requested without limits and will be done manually in the shortest possible time. Contact support only if the money has not been credited after 24 hours

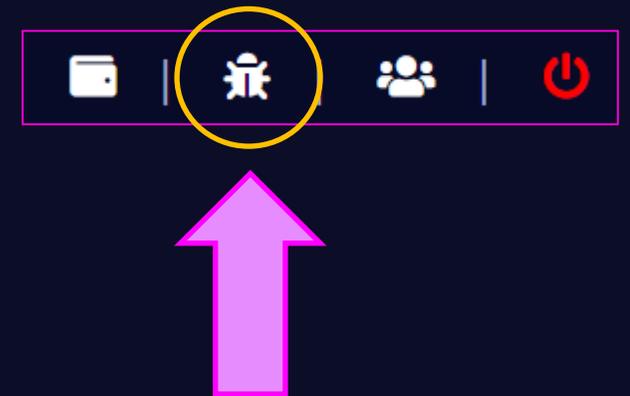

REFERRAL SYSTEM AND BUG SECTION

A great and simple referral system will soon be added to Lottryx. Just share your Referral ID with whoever you want and anyone who accesses the game via your link and purchases tickets will allow you to get free tickets as a reward. These free tickets can be played like any other ticket and will give you the chance to win part of the prize pool

BUG SECTION

If something unexpected happens during the mint of the Ticket, such as closing the browser, don't worry your purchase is safe and you can retrieve it in the bug section
